TRIPLE INDUCTION CHARGE STATION

XB-B3NC

FOR XBOX 360

CHARGES 3 CONTROLLERS

Forget the small fortune that disposable batteries often cost, or the annoying nest of wires that you have to keep untangling; power up your Xbox 360® controllers using non-contact induction charging technology. Other rechargeable methods typically require you to keep your controller plugged into the system, and manage cords that only get in the way. With our simple solution all you have to do is set it up once, and place up-to three controllers on its magnetic charging cradles. This is great for avid Xbox 360 players who have multiple controllers in their homes or dorms. The LED lights let you know when you're ready to game, and the stand itself provides a means of staying organized in style.

Specifications:
- LED lights illuminate red while charging
- LED lights illuminate green when fully charged
- Powered by AC adapter
- Battery Type: 900mAh Rechargeable

Features:
- Eliminates messy wires
- Charge up to 3 controllers at once
